CAPS Compounding Process

- Order double-checked and approved by CAPS Pharmacist.
- Manual additives checked with barcoded compounding process to minimize risk.
- Same-day delivery of the custom compounded PN with safety checks built in.
- Comprehensive standard PN labels with safety features and patient-specific barcode.

For accurate and reliable pharmacy admixture services that help you provide the best possible care for your patients

CAPS® is the nation's largest network of outsourcing admixture pharmacies and a market leader in the compounding of Parenteral Nutrition. With each of our more than 200,000 local deliveries of PN annually, this high alert medication—and essential treatment option for certain patients—gets the critical double check that is recommended by ISMP.

With our 22 pharmacy locations licensed in all 50 states, we deliver high-quality, same-day and next-day admixture services and solutions to hospitals and outpatient facilities across the nation, 365 days a year. In addition, we have services dedicated to helping hospitals, home infusion pharmacies, and surgery centers navigate the compounding regulatory environment.

Find out how CAPS can provide you with programs and services that help you focus on improving patient care. Contact us at 1-800-853-6498 or visit www.CAPSPharmacy.com.
